

### ***Changes Made on the new Version of ManeyMaker Released on 18<sup>th</sup> July 2014***

---

1. Change in Login Form and Procedure for smooth login
2. Introduction of Verification in login for SOLO users
3. Password to be sent on email on every password reset.
4. Charts totally made new. To see new chart go to tools – preferences – General –charting select Beta Version.
5. Problem of version update solved.
6. Last update date time on price view as actual.
7. Introduction of new column “VWap” i.e. weight average price. You need to sett vWap start time at Tools- preferences- general- wVap Start time. At time set here it will start calculating the average price. This will basically indicate the possible closing price (for equity the day’s closing price and for FO the closing price on the last day)
8. BSe Post Closing price will now be shown in close column of best Five.
9. Introduaction of new segment as BSEFO.
